

Bridgend Highway Reinstatement Contract

This contract consists of construction, repair and maintenance of carriageways and footways throughout the Bridgend Catchment Area. Work packages vary from larger one-off schemes of values up to £200k, to minor repair/reactive maintenance works to carriageways, footways and iron work of values between £500 and £5k.

Works are carried out at various locations across the Bridgend County Borough Council highway network including busy town centres, high speed dual carriageways, residential areas, rural lanes, outside schools and in commercial areas.

Types of activities undertaken as part of this contract include:

- Kerbing;
- Tactile and footway paving;
- Drainage/ducting installations;
- Street lighting and signage;
- Street furniture;
- Footway construction, reinstatement and resurfacing;
- Carriageway construction, reinstatement and resurfacing;
- Road marking application;
- Landscaping.

The safety of the traveling public and our own human resources is a priority on each and every scheme. Traffic and pedestrian management is provided by our experienced in-house NHSS 12A, B & D accredited Traffic Management Division.

Our local depots, labour and plant enable us to effectively manage the fluctuating workloads often experienced with this type of contract. We are also responsible for community liaison and engagement including letter drops where required.

We have developed a good working relationship with our client and regularly receive praise for our performance under this contract. We have been working on this contract for over 10 years and are still currently working on it today, with our latest contract expiring in March 2019 which is testament to the standard of our service provision and contract performance.

Client: Bridgend County Borough Council

Value: circa £500k per annum

Delivery Period: April 2006 – March 2019
